

XPAK-G2

Salient Characteristics:

- Portable Trace Explosives Detection System
- Fluorimetric detection of conventional high explosives and homemade explosives
- Case to operation in less than 90 seconds - no warm up.
- No calibration required.
- No scheduled maintenance.
- No radioactive components.
- No hot sample clean out.
- Rugged & field reliable. Proven in combat.
- Intuitive and easy to learn and use. Training in less than a day. Low overhead cost.
- Multi-media training tools available.
- Detections in less than 15 seconds*
- Screen people, packages, vehicles, surfaces.
- Proprietary i-module data logging, visualization, and analysis tool with GPS.
- Preservation of detection samples.
- Affordable.
